

2015-10-22 CGSync Meeting notes

Date

 22 Oct 2015 - [last meeting](#)

canceled.

Attendees

- [Thomas Cherry](#)
- [Christopher Gokey](#)

Questions

- Status on question asked last meeting on assigning ACL rules to DIF Private field.
- Status on new provider IDs [EDO-759](#)
 - ceos providers not created
 - sciops group and sciops provider status
- Straw man: GCMD would like to start supplying frozen non-eosdis records into production and support them in CMR and to finish all by end of November.
 - Load a small set of test (private) records, test. Make public.
 - GCMD would next like to start adding records provider by provider (5).
- GCMD hears that the facet counts may change in the API results, how will these results change and what time frame.
